BILLING CODE 6717-01-P
DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

[Project No. 2280-

018]

Seneca Generation, LLC;
Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380, the Office of Energy Projects has reviewed the application for a new license for the 451.8-megawatt (MW) Kinzua Pumped Storage Project located on the Allegheny River in Warren County, Pennsylvania, adjacent to the U.S. Army Corps of Engineers' (Corps) Kinzua dam and has prepared an environmental assessment (EA).

In the EA, Commission staff analyzes the potential environmental effects of licensing the project and concludes that issuing a new license for the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link.
